

Geography Curriculum Key Vocabulary UKS2

Year 5		
climate zones	river	grid reference
products	confluence	record
industrial	mouth	contours
weather	delta	landscape
vegetation belts	water cycle	features
arid	evaporation	contour lines
settlement	tributary	natural
sea level	flood plain	scale (maps)
terrain	meander	continent
population	surface	sub-continent
industry	precipitation	Northern Hemisphere
Deposition	condensation	Southern Hemisphere
Land forms	irrigation	Tropics of Cancer and Capricorn
development	Ground water	Africa
mountain range	biomes	Tundra
	tropical rain	Desert
	source	Grassland
	Global warming	forest
	droughts	
	flooding	
Year 6		
migrate	Canopy (trees)	Ordinance Survey
disperse	natural disasters	distance
sustainability	natural resources	scale
import	tropical	location
export	equatorial	minutes
immigrant	Tectonic plates	Grid reference
time Zones	naturalised	symbols
Northern Hemisphere	indigenous	urban
Southern Hemisphere	deforestation	rural
Tropic of Capricorn	renewable	Land use

Tropic of Cancer	biomes	congestion
Longitude	Vegetation belts	pollution
Latitude	Climate zones	survey
equator	pollution	Questionnaire
Artic	magma	population
Antartica	subterranean	conservation
North West England	erosion	locate
Giant Causeway		Traffic survey
Asia		Collate data
